

AI_CHAT

Welcome to AI_CHAT.

AI_CHAT is a next-gen plugin software for TV production platforms. The software allows users to interact using a chat communication in real-time. Users will be able to ask question to the TV-host and get answers.

AI_CHAT will filter the questions on relevance due to the massive amount of users that is active on prime time TV-shows.

Host on SVT will therefor answer questions that has been selected from the audience. This is an attempt to maintain and establish a better connection with the users on svtplay.se

Tell us what you think about our AI_CHAT improvements, follow the stream @pulszone
